WOODBIDGE

4 2 2

In tune with contemporary aesthetics and the natural elements, Woodbridge's cedar cladding and low-slung hip roof gift its modern-day charm. Featuring a private entranceway and large outdoor courtyard, it's easy to slip into entertaining mode by stepping out from the large open-plan kitchen, dining and from the bedroom wing. With a huge family and living space - complete with fire, and separate master wing - this is all-inclusive design.
